Government Procurement Division

TENDER DOCUMENT

Supply, Installation, Integration and Comprehensive Maintenance of Intelligent Learning Infrastructure for Government Residential Schools

Tender Reference	NPIA/EDU-ICT/2026/014
Estimated Contract Value	INR 12.40 Crore
Bidding System	Two-Bid System
Contract Period	120 days implementation + 3-year warranty

IMPORTANT NOTICE

This document is a synthetic procurement document created for the Saanron SIH 2026 demonstration. It is modeled on the structure and information density of Indian GeM/public-sector tender documents and is not issued by any government authority.

SAANRON | Evidence-driven procurement compliance demonstration

SECTION I - TENDER INFORMATION SUMMARY

Field	Tender Information
Tender title	Supply, Installation, Integration and Comprehensive Maintenance of Intelligent Learning Infrastructure for Government Residential Schools
Tender reference	NPIA/EDU-ICT/2026/014
Tender type	Open e-Tender (Domestic)
Bidding system	Two-bid: Technical + Financial
Evaluation basis	Techno-commercial qualification followed by financial evaluation
Estimated value	INR 12,40,00,000 (excluding applicable taxes as specified in BoQ)
Part quotation	Not permitted; bidder shall quote for the complete scope
Bid validity	120 days from date of bid opening
EMD	INR 24,80,000, subject to applicable exemption provisions stated in the tender
Performance security	5% of contract value
Implementation period	120 calendar days from purchase order
Warranty	3 years from site acceptance
Post-warranty support	Optional 2-year AMC at separately quoted rates
Language	English
Currency	Indian Rupees (INR)

Critical dates shall be as displayed on the GeM bid page. Any amendment/corrigendum issued before bid closing shall form part of the tender document.

SECTION II - NOTICE INVITING TENDER

1. Invitation

The National Public Infrastructure Agency (NPIA) invites bids from eligible suppliers/integrators for supply, installation, integration, testing, commissioning and maintenance of intelligent learning infrastructure at 80 government residential schools.

2. Pre-bid Conference and Clarifications

- A pre-bid conference may be held online. Participation is optional unless otherwise specified in the GeM bid.
- Prospective bidders shall submit clarification requests within the time window published in the tender information summary.
- Responses and corrigenda shall be uploaded through the procurement portal and bidders are responsible for considering the latest version of the tender.

3. Submission of Bids

- Bids shall be submitted electronically through GeM by the prescribed deadline.
- The technical bid shall contain all eligibility, qualification, technical and documentary submissions requested in this tender.
- The financial bid shall contain item-wise rates in the prescribed Bill of Quantity/price schedule.
- Bidders shall not alter the substantive provisions of the tender document while completing forms.

4. Rights of Procuring Entity

- NPIA may accept or reject bids in accordance with the tender conditions.
- NPIA may issue amendments/corrigenda before the bid submission deadline.
- The issue of this tender does not constitute an obligation to award a contract.

SECTION III - INSTRUCTIONS TO BIDDERS

1. Bid Structure

Envelope	Contents
Technical Bid	Eligibility documents, declarations, technical compliance, experience, OEM authorization, certificates, implementation plan and supporting evidence.
Financial Bid	Completed price schedule/BoQ in INR for all mandatory line items.

2. General Conditions for Bid Preparation

- The bidder shall study the complete tender, including all annexures and cross-referenced forms.
- Documents shall be legible and signed/digitally signed where required.
- Any material deviation from a mandatory technical requirement shall be declared in the technical compliance form.
- A bidder shall be responsible for the completeness and authenticity of submitted information.

3. Bid Validity and Withdrawal

The bid shall remain valid for 120 days. Withdrawal or modification after bid closing shall be governed by the procurement portal and tender conditions.

4. Conflict of Interest

Bidders shall disclose actual or potential conflicts of interest affecting impartial participation. The procuring entity may seek clarification or supporting documentation.

SECTION IV - PUBLIC PROCUREMENT POLICIES

1. Make in India / Local Content

For the offered intelligent display, UPS and network equipment, the bidder shall state the percentage of local content and identify the location(s) of local value addition. For this synthetic tender, a minimum local-content level of 50% is required for the primary equipment package to qualify as Class-I local supply for the purpose stated in this tender.

Category	Local content	Interpretation
Class-I local supplier	50% or more	Eligible for stated local-content criterion
Class-II local supplier	20% to below 50%	Eligible only where tender permits
Non-local supplier	Below 20%	Not eligible for the mandatory local-content criterion

2. MSE / Start-up Treatment

Any applicable exemption or preference shall be applied only where the bidder submits the documentary evidence required by the tender and the applicable procurement policy. Exemption from turnover, where applicable, does not automatically waive experience requirements.

3. Country of Origin and Import Content

The bidder shall disclose material imported components and the country of origin of the primary offered equipment. Where OEM declarations are required, the same shall accompany the technical bid.

SECTION V - ELIGIBILITY & QUALIFICATION CRITERIA

No.	Criterion	Required documentary evidence
1	Legal entity incorporated/registered in India and operational for at least 3 years.	Certificate of incorporation/registration and entity profile.
2	Average annual audited turnover of at least INR 5 Crore during the last 3 completed financial years.	Audited financial statements and CA certificate.
3	Positive net worth as on the latest audited balance sheet.	CA-certified net worth statement.
4	At least one similar ICT supply/integration project of value not less than INR 3.5 Crore completed during the previous 5 years.	Work order/purchase order and completion certificate.
5	Valid and active GST registration.	GST registration certificate + verification.
6	Valid PAN of bidding entity.	PAN document + verification.
7	Active Udyam registration where MSE status is claimed.	Udyam certificate + verification.
8	Valid OEM authorization for offered intelligent displays and network equipment.	OEM authorization letter on manufacturer letterhead.
9	OEM shall demonstrate supply of at least 500 units of the primary display product in India during previous 3 years.	OEM declaration with reference installations.
10	Bidder/OEM shall maintain a service facility capable of supporting the deployment within a 500 km service radius from each deployment cluster.	Service facility declaration and address proof.
11	ISO 9001:2015 certification for quality management.	Valid ISO certificate and issuing-body details.
12	Minimum local content for primary equipment package: 50%.	OEM/local-content certificate.
13	Bidder must not be blacklisted, banned or debarred by a competent authority as of bid submission.	Signed non-blacklisting declaration.
14	Minimum product warranty: 3 years.	OEM/bidder warranty undertaking.
15	Qualified field support staff available during implementation and warranty.	Deployment staffing plan and certifications.

Failure to satisfy a mandatory qualification criterion may render the bid non-responsive, subject to the tender evaluation procedure.

SECTION V-A - EVALUATION METHODOLOGY

Stage	Evaluation action	Resulting state
1	Document completeness and basic eligibility screening	Responsive / clarification / non-responsive
2	Qualification and technical compliance	Qualified / manual review / not qualified
3	Financial bid evaluation among technically qualified bidders	Financially evaluated
4	Award and contract formalities	Letter of award / contract

The compliance matrix in this tender intentionally separates conditions that can be checked from structured evidence from conditions that require officer review. A declaration or document submission does not, by itself, constitute independent verification.

Cross-reference: Technical responses shall be provided in Form 4 - Technical Specifications Compliance & Deviations. Qualification evidence shall be provided in Form 5 - Qualification Criteria Compliance.

SECTION VI - SCOPE OF WORK

The successful bidder shall provide an end-to-end package for 80 government residential schools, including supply, transportation, installation, integration, testing, commissioning, documentation and training.

- Site survey and deployment planning for each school.
- Supply and installation of intelligent interactive displays, UPS units and network connectivity equipment.
- Electrical and structured cabling work necessary for safe installation.
- Network configuration, device enrollment and baseline security hardening.
- System testing and site acceptance testing.
- Teacher/user orientation and handover documentation.
- Warranty support, defect rectification and periodic preventive maintenance.
- Submission of as-built documentation, asset registers and serial-number lists.

Site execution shall comply with the implementation schedule and acceptance criteria on subsequent pages. The bidder remains responsible for coordinating all equipment and installation activities within the awarded scope.

SECTION VII - IMPLEMENTATION AND DELIVERY PLAN

Milestone	Target	Deliverable
M1	Day 15	Kickoff, site survey plan, sample configuration and deployment schedule
M2	Day 30	At least 25% of school sites supplied and installation substantially completed
M3	Day 75	At least 60% of school sites commissioned
M4	Day 120	100% site deployment, commissioning and documentation completed

Delay handling

Delay attributable to the bidder may attract liquidated damages at 0.5% of the value of the delayed portion per completed week, subject to a maximum of 5% of the affected contract value, unless otherwise established by the contract conditions.

Site-level delivery evidence shall include delivery challan, installation checklist, serial numbers, configuration record and acceptance sign-off.

SECTION VIII - BILL OF QUANTITY / PRICE SCHEDULE

Item	Description	Qty	Unit
1	65-inch intelligent interactive display - minimum 4K, 20-point touch	480	Nos.
2	1 KVA UPS with minimum 10 minute backup at defined load	480	Nos.
3	Wi-Fi 6 access point with PoE	160	Nos.
4	Managed network switch for classroom/site connectivity	80	Nos.
5	CAT6/electrical/cable accessories and installation materials	80	Sets
6	Installation, integration and commissioning	80	Sites
7	Training and handover documentation	80	Sites
8	Comprehensive warranty support - 3 years	80	Sites

Bidders shall quote all line items. Prices shall be inclusive of all costs necessary for complete delivery of the scope, excluding taxes only where the price schedule separately requests them.

SECTION IX - TECHNICAL SPECIFICATIONS: INTELLIGENT DISPLAY

Parameter	Minimum requirement
Display size	65 inch
Native resolution	3840 x 2160
Brightness	330 cd/m2 or higher
Viewing angle	Minimum 176 degrees horizontal and vertical
Touch points	Minimum 20-point capacitive/in-cell touch
Touch response	15 ms or better
RAM / storage	Minimum 4 GB RAM / 32 GB internal storage
Wireless	Dual-band Wi-Fi 5/6 with WPA2/WPA3 support
LAN	Integrated Ethernet port
HDMI	Minimum 2 HDMI input ports
USB	Minimum 2 USB ports
Audio	Integrated stereo speakers, minimum 2 x 10 W
Surface	Anti-glare hardened surface suitable for classroom use
Warranty	Minimum 3 years comprehensive warranty

The bidder shall identify the offered make/model against every parameter in the technical compliance form. Datasheet page references shall be provided for each material technical claim.

SECTION IX-A - TECHNICAL SPECIFICATIONS: UPS, NETWORK AND INSTALLATION

Component	Requirement
UPS capacity	1 KVA minimum
UPS efficiency	Minimum 90% at rated load
Backup	Minimum 10 minutes at defined connected load
Battery	SMF-VRLA or equivalent maintenance-reduced battery technology
Wi-Fi access point	Wi-Fi 6; aggregate throughput target ≥ 1.2 Gbps; PoE capable
Network switch	Managed switch with VLAN support and minimum 24 Gigabit ports for the site cabinet
Cabling	CAT6 or better, tested and labeled
Electrical safety	Earthing, protected outlets and cable management as required by site survey
Installation	Wall/stand mounting, configuration, testing and asset labeling

Where a requirement is stated as a minimum, a higher value is acceptable unless another clause creates an incompatibility. Deviations shall be explicitly disclosed.

SECTION X - SERVICE LEVEL AGREEMENT, WARRANTY AND SUPPORT

Service metric	Contract requirement
Helpdesk acknowledgement	Within 4 working hours of logged incident
Critical site visit	Within 1 working day where remote resolution is not possible
Critical resolution target	Within 2 working days, subject to spare availability
Warranty	3 years from site acceptance
Preventive maintenance	At least one planned preventive visit per year during warranty
Defective equipment	Repair or replacement at no additional charge where covered by warranty
Training	At least one user orientation session per site

The bidder shall provide an escalation matrix containing support contact roles, service facility addresses and response mechanisms.

SECTION XI - INSPECTION, TESTING AND ACCEPTANCE

1. Inspection before Delivery

The procuring entity may inspect sample units, serial numbers, packaging and documentation before or during delivery.

2. Site Acceptance Test

Test	Minimum evidence
Display functionality	Resolution, touch, audio, ports and basic operating functions checked
Network connectivity	Wired/wireless connectivity and baseline configuration verified
Power backup	UPS startup and backup test against agreed load
Installation safety	Mounting, cabling, earthing and labeling inspected
Documentation	Asset register, serial numbers, configuration and handover documents submitted

Any equipment failing the required specification or agreed acceptance test shall be rectified/replaced by the bidder without additional charge within the applicable warranty or commissioning period.

SECTION XII - COMMERCIAL, SECURITY AND CONTRACT CONDITIONS

- Performance security: 5% of awarded contract value unless otherwise stated in the contract.
- Payment: milestone-based payment against delivery, installation, commissioning and acceptance certificates.
- Prices: firm during the implementation period unless an approved variation clause applies.
- Insurance and safe custody of materials remain the bidder responsibility until accepted at site.
- Subcontracting of material scope shall require prior written approval and shall not relieve the bidder of contractual responsibility.

Indicative payment schedule

Milestone	Indicative payment share
Supply at site with inspection documents	40%
Installation and testing	30%
Commissioning and site acceptance	20%
Stabilization / close-out documentation	10%

The final executed contract and applicable GeM terms shall govern in case of conflict with this synthetic demonstration document.

SECTION XIII - FORMS AND DECLARATIONS

Form	Submission	Purpose
Form 1 - Bid Form	Mandatory	Covering bid letter
Form 2 - Bidder Information	Mandatory	Legal entity and contact details
Form 3 - Eligibility Declarations	Mandatory	Eligibility confirmations
Form 4 - Technical Compliance & Deviations	Mandatory	Parameter-by-parameter compliance
Form 5 - Qualification Compliance	Mandatory	Qualification evidence mapping
Form 6 - Experience Statement	Mandatory	Similar project references
Form 7 - OEM Authorization	Mandatory where OEM scope applies	Manufacturer authorization
Form 8 - Local Content Declaration	Mandatory	Local value-add declaration
Form 9 - Non-Blacklisting Declaration	Mandatory	Blacklist/debarment declaration
Form 10 - Bidder Checklist	Mandatory	Final document checklist

Synthetic document note: forms are included here to make the procurement structure realistic; Saanron may treat them as evidence sources for future document-intelligence demonstrations.

ANNEXURE A - BIDDER EVIDENCE SCHEDULE

The bidder shall map every material submission to a clear source document and page reference. This schedule is deliberately structured to support evidence-first review.

Evidence item	Minimum source	Bidder page reference
Audited turnover / CA certificate	Audited financial statements + certificate	_____
Net worth statement	Latest audited balance sheet + CA statement	_____
Similar project completion	PO/WO + completion certificate	_____
GST/PAN/Udyam	Registration certificates	_____
OEM authorization	OEM letter on letterhead	_____
ISO 9001	Valid certificate + scope	_____
Local content	OEM/local-content certificate	_____
Technical datasheets	Manufacturer datasheets/test reports	_____
Warranty/SLA	Undertaking + support plan	_____
Non-blacklisting	Signed declaration	_____

For the Saanron demonstration, this page provides realistic source/document cross-references for AI extraction and evidence-chain navigation.

SECTION XIV - BIDDER CHECKLIST AND CROSS-REFERENCE INDEX

Requirement family	Primary source location	Supporting submission
Financial qualification	Section V, Eligibility Criterion 2	Audited financials + CA certificate
Net worth	Section V, Criterion 3	CA statement
Experience	Section V, Criterion 4 + Form 6	PO + completion certificate
GST / PAN / Udyam	Section V, Criteria 5-7	Registration documents + verification
OEM authorization	Section V, Criterion 8 + Form 7	OEM letter
Local content	Section IV + Section V, Criterion 12	OEM/local-content certificate
Technical specification	Sections IX and IX-A + Form 4	Datasheets + signed compliance matrix
Warranty / SLA	Section X	Warranty undertaking + support plan
Blacklist / debarment	Section V, Criterion 13 + Form 9	Declaration

End of Tender A

All requirements are synthetic and intended to exercise document extraction, evidence linkage, deterministic compliance checks and officer review within the Saanron prototype.
